Resort pampers pets when owner's away

Three Fairfield High School graduates have teamed to open Pet City Resort.

The new business owned by Alisha Burns, Robert Burns and Brian Starner provides long-term boarding for dogs and cats at a 7,500-square-foot resort.

The business at 9474 Princeton-Glendale Road offers kitty cabin accommodations, 24-hour TV for pets, free baths for pets staying five or more nights, a climate-controlled indoor environment and an outdoor play area and a pet taxi service to the kennel.

"As someone who has loved and worked with animals for years, this is a wonderful dream come true," said Alisha Burns, manager. "Pet City Resort is a place where pet owners can be assured they will be pampering their pets even when they are out of town. We will cater to the pet owner and (their pets') needs in a first-class atmosphere."
